

RTA Pre-Owned Instruments

Summer, 2010

Robert Tall & Associates, Inc. continues to enjoy record sales in 2010! Many Rodgers owners are trading in and trading up. We have a showroom and warehouse full of great values. A few are listed below. All sales include delivery, setup and a full used organ warranty. All instruments come complete with owner's manuals. Owners are invited to attend our Division of Continuing Education classes. (Please see our website for class schedule.)

Model 115 Tab

Rodgers 2-manual "Deseret" 115, excellent condition. AGO pedalboard, all 4 tonal families represented in specification, performance-style (dog-leg) bench, perfect for home practice organ or small chapel use. External audio required.

Essex 655 Tab

Excellent condition. 37 authentic pipe organ speaking stops, full coupler complement, moving stop tablet system, 32-note illuminated AGO specification pedal clavier, lift-lid bench for music storage, headphone jack for silent practice, transposer, three channel (330 watts) audio system, MIDI.

Oxford 945

On Display Now at RTA!

The Rodgers Oxford 945 is a comprehensive 3-manual organ of 59 speaking stops and 21 couplers housed in a striking lighted drawknob console with solid wood keyboards and toe stud bolsters. Rodgers exclusive Parallel Digital Imaging™ is used to go beyond the artificial sameness of digital sampling to create the precise realism of a real pipe organ. Each note of every stop can be tuned, leveled and voiced as if they were real pipe ranks. Real pipes of 4 to 23 ranks may be added to this instrument. This particular 945 was installed in a Los Angeles church in 1992. It was seldom used

and is in mint condition. Not a scratch, the sound is awesome!

Model 360

Hello theatre organists. Here is a rare opportunity! Don't miss this one!

Rare...because Rodgers only built a few of these model 360 digital theatre organs in the 1990s. They are still too "new" to come back in on trade. This particular instrument is available because the one and only owner has moved into smaller quarters.

Many claim this is the finest digitally sampled theatre organ ever built. You will likely agree when you hear the realistic recorded samples from a vintage and renown Wurlitzer Pipe Organ play back through a quality speaker system. The console is built of solid hardwood, beautifully designed in traditional theatre organ styling with illuminated wood music rack and stoprail. Theatre-style bench and AGO pedalboard included.

2-Rank Pipe Set

Pre-owned 2-rank pipe set, Principal and Flute on handsome walnut skirt. The Principal is made of spotted metal, the wooden flutes of solid walnut. They have been voiced to create a solidly elegant sound. They can be made to interface to almost any Rodgers organ. Currently playing and ready to show at Robert Tall & Associates, Inc. San Dimas showroom. Originally in a large home, would be perfect for another residence or small chapel. Blower and interface included.

You Want Bass?

Twin heavy-duty solid oak subwoofers. Total frequency reproduction without compromise to 16 cycles, the bottom of a 32' stop. A perfect setup where sight and sound are of utmost importance.

Speaker Setup

Our pre-owned instruments can be equipped with new Rodgers speakers and amplifiers for an additional cost. Pictured here is a 3-channel system, which is a powerhouse and requires a minimum of space.
